

# Pupil premium strategy statement

This statement details our school's use of pupil premium (and recovery premium for the 2021 to 2022 academic year) funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the effect that last year's spending of pupil premium had within our school.

## School overview

# Part A: Pupil premium strategy plan

## Statement of intent

At St Thomas, our Pupil Premium strategy is focussed on improving outcomes for our most disadvantaged pupils through a three-tiered approach: quality first teaching for all pupils; targeted interventions and wider strategies which consider the whole child and their barriers to learning. We believe that parents play a crucial role in the success of pupils, so it is our aim to actively engage and support parents and families. Further to this, we feel that excellent attendance is key for all of our pupils, so we aim to continue to work relentlessly to combat barriers to good attendance, thus improving the attendance of our disadvantaged pupils, still aiming towards the target we have for the whole school: 100% attendance. Quality first teaching is at the heart of everything we do at St Thomas, with a focus on the attainment and progress of our most disadvantaged pupil; we rigorously track the progress of these pupils to ensure our strategy meets their specific needs and works to address any gaps. Through our curriculum and range of opportunities, we aim to open doors to new experiences for our Pupil Premium children that may have been closed. Our disadvantaged pupils are prioritised in everything we do at St Thomas and their barriers to learning and individual needs are considered in all professional discussions and decision making.

Our pupil premium strategy is shared and agreed with all staff, meaning each member of our team understands their roles and responsibilities when supporting our pupil premium children. At St Thomas, we want all pupils to thrive by accessing our challenging and academic curriculum, experiencing all that life has to offer; our Pupil Premium strategy has been designed with this key aim in mind.

## Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

| Challenge number | Detail of challenge                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1                | Assessments, observations and discussions with pupils suggest that disadvantaged pupils generally have greater difficulties with phonics than their peers. This negatively impacts their development as readers.                                                                                                                                                                                                                                                                                                                    |
| 2                | Our assessments and observations indicate that the education and well-being of our disadvantaged pupils has been impacted by partial school closures to a greater extent than other pupils. These findings are supported by national studies. This has resulted in significant knowledge gaps, leading to pupils falling further behind age related expectations, particularly in maths and reading.                                                                                                                                |
| 3                | Attendance data shows that there is missed learning due to poor attendance – there is a difference between PP attendance and non-PP attendance which is a contributing factor to poor academic achievement.                                                                                                                                                                                                                                                                                                                         |
| 4                | Observations, discussions and surveys indicate low levels of parental engagement/ support – some parents do not engage well with school and communication is poor. There can be lower attendance from PP parents at school events such as parents evening and celebrations.<br>Observations, discussions and surveys indicate low levels of parental confidence in supporting home learning – parents and pupils have commented on how they felt a lack of confidence when learning at home, particularly around maths and reading. |
| 5                | Some PP pupils face ongoing challenges linked to mental health – this presents as school refusal, anxiety, lack of confidence, low levels of resilience in both parents and pupils                                                                                                                                                                                                                                                                                                                                                  |

## Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

| Intended outcome                                                                                      | Success criteria                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

| <p>Pupils have excellent learning behaviours and the skills needed to learn independently.</p>                                                                                                                            | <ul style="list-style-type: none"> <li>– Teachers have a deep routed understanding of metacognition and apply it to their everyday teaching</li> <li>– Children have a range of strategies they can use to help them to learn and make progress in a lesson</li> <li>– Children are independent and use a range of resources in the classroom to help them in their learning</li> <li>– Children are resilient and face challenge with enthusiasm</li> <li>– St Thomas' behaviour curriculum is deeply embedded to support children in learning how to behave, developing and intrinsic motivation to behave well</li> </ul>                                                                                                                                                                                                                                                         |
| <p>All pupils have a rich vocabulary and have a good standard of written and spoken communication, inclusive of a broad vocabulary. Pupils will be confident when communicating with others in a range of situations.</p> | <ul style="list-style-type: none"> <li>– Children who have a rich vocabulary and apply it in their everyday spoken and written language</li> <li>– Children who are enthusiastic about learning the meaning of new words</li> <li>– Children who are confident communicating in a range of everyday situations</li> <li>– Children who can understand and apply the conventions of conversation</li> <li>– A consistently embedded, progressive phonics scheme, taught by confident, skilled teachers</li> </ul>                                                                                                                                                                                                                                                                                                                                                                     |
| <p>A strategic approach to mental health and wellbeing is embedded across the school, eliminating barriers to learning</p>                                                                                                | <ul style="list-style-type: none"> <li>– A rigorous PSHE curriculum, tailored to meet the needs of all pupils</li> <li>– An embedded school wide approach to self-regulation</li> <li>– Targeted support from trained members of staff for children who need specific intervention e.g. counselling, therapy sessions</li> <li>– Quality first teaching well embedded across school to support children with SEMH with appropriate strategies consistent from EYFS to KS2</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                 |

## Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium funding) this academic year to address the challenges listed above.

Budgeted cost: £9872

| Activity                                                          | Evidence that supports this approach                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | Challenge number(s) addressed |
|-------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------|
| Accelerated Reader                                                | <p>Reading comprehension strategies are high impact on average (+6 months). Alongside phonics it is a crucial component of early reading instruction.</p> <p>Effective diagnosis of reading difficulties is important in identifying possible solutions, particularly for older struggling readers. Pupils can struggle with decoding words, understanding the structure of the language used, or understanding particular vocabulary, which may be subject-specific.</p> <p><a href="https://educationendowmentfoundation.org.uk/education-evidence/teaching-learning-toolkit/reading-comprehension-strategies">https://educationendowmentfoundation.org.uk/education-evidence/teaching-learning-toolkit/reading-comprehension-strategies</a></p>                    | 2                             |
| Staff training – quality first teaching/ metacognition            | <p>EEF- The potential impact of metacognition and self-regulation approaches is high (+7 months additional progress).</p> <p>There is some evidence to suggest that disadvantaged pupils are less likely to use metacognitive and self-regulatory strategies without being explicitly taught these strategies. Explicit teaching of metacognitive and self-regulatory strategies could therefore encourage such pupils to practise and use these skills more frequently in the future.</p> <p><a href="https://educationendowmentfoundation.org.uk/education-evidence/teaching-learning-toolkit/metacognition-and-self-regulation">https://educationendowmentfoundation.org.uk/education-evidence/teaching-learning-toolkit/metacognition-and-self-regulation</a></p> | 1, 2, 5                       |
| Continue to refine marking and feedback policy                    | <p>EEF- Providing feedback is a well-evidenced and has a high impact on learning outcomes. Effective feedback tends to focus on the task, subject and self-regulation strategies: it provides specific information on how to improve.</p> <p>Feedback can be effective during, immediately after and sometime after learning. Different methods of feedback delivery can be effective and feedback should not be limited exclusively to written marking. Studies of verbal feedback show slightly higher impacts overall (+7 months).</p> <p><a href="https://educationendowmentfoundation.org.uk/education-evidence/teaching-learning-toolkit/feedback">https://educationendowmentfoundation.org.uk/education-evidence/teaching-learning-toolkit/feedback</a></p>    | 1, 2                          |
| Read, Write Inc phonics programme (including Fast Track tutoring) | <p>The average impact of the adoption of phonics approaches is about an additional five months' progress over the course of a year.</p> <p>Phonics approaches have been consistently found to be effective in supporting younger pupils to master the basics of reading, with an average impact of an additional five months' progress. Research suggests that phonics is particularly beneficial for younger learners (4–7 year olds) as they begin to read. Teaching phonics is more</p>                                                                                                                                                                                                                                                                            | 1, 2, 4                       |

Jesus said, 'Come follow me, live your lives the way God wants you to.'

effective on average than other approaches to early reading (such as whole language or alphabetic approaches).

## Wider strategies

Budgeted cost: £

| Activity                                                           | Evidence that supports this approach                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | Challenge number(s) addressed |
|--------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------|
| Parent liaison role                                                | EEF- The average impact of the Parental engagement approaches is about an additional four months' progress over the course of a year. There are also higher impacts for pupils with low prior attainment. It is crucial to consider how to engage with all parents to avoid widening attainment gaps. There is evidence that personalised messages linked to learning can promote positive interactions.<br><a href="https://educationendowmentfoundation.org.uk/education-evidence/teaching-learning-toolkit/parental-engagement">https://educationendowmentfoundation.org.uk/education-evidence/teaching-learning-toolkit/parental-engagement</a>                                                                                                                                                                                                                 | 3, 4, 5                       |
| Attendance                                                         | Poor school attendance is a significant problem in the UK. In 2019/20, it was reported as 4.9% overall. Research has found that poor attendance is linked to poor academic attainment across all stages (Balfanz & Byrnes, 2012; London et al., 2016) as well as anti-social characteristics, delinquent activity and negative behavioural outcomes (Gottfried, 2014; Baker, Sigmon, & Nugent, 2001). However, evidence suggests that small improvements in attendance can lead to meaningful impacts for these outcomes.<br><a href="https://committees.parliament.uk/writtenevidence/118069/pdf/">https://committees.parliament.uk/writtenevidence/118069/pdf/</a>                                                                                                                                                                                                | 3                             |
| Access to a range of extra-curricular clubs and activities         | Overall, the average impact of arts participation on other areas of academic learning appears to be positive but moderate, about an additional three months progress.<br>Improved outcomes have been identified in English, mathematics and science. Benefits have been found in both primary and secondary schools.<br><a href="https://educationendowmentfoundation.org.uk/education-evidence/teaching-learning-toolkit/arts-participation">https://educationendowmentfoundation.org.uk/education-evidence/teaching-learning-toolkit/arts-participation</a>                                                                                                                                                                                                                                                                                                       | 2, 5                          |
| Whole school approach to mental health (including PSHE curriculum) | The evidence shows that personal, social, health and economic (PSHE) education can improve the physical and psychosocial well-being of pupils. A virtuous cycle can be achieved, whereby pupils with better health and well-being can achieve better academically, which in turn leads to greater success. Taking a whole school approach to health and well-being is linked to pupils' readiness to learn. A recent review of the link between pupil health and wellbeing and attainment advocated promotion of health and well-being as an essential element of a school's effectiveness strategy (Public Health England, 2014).<br><a href="https://assets.publishing.service.gov.uk/media/5a7ede2ded915d74e33f2eba/HT_briefing_layoutvFINALvii.pdf">https://assets.publishing.service.gov.uk/media/5a7ede2ded915d74e33f2eba/HT_briefing_layoutvFINALvii.pdf</a> | 1,2,3,5                       |

## Part B: Review of outcomes in the previous academic year (2022/23)

We are proud of the progress our Pupil Premium children have made this year and can already see the positive impact our three-year plan is having on the outcomes of the most disadvantaged. The majority Pupil Premium children have made good or accelerated progress across the curriculum; we believe effective quality first teaching has been the main factor in this. Rigorous tracking and interventions have ensured that the gaps in our Pupil Premium children's knowledge and understanding, particularly in reading, have been identified and children have made progress in these areas. The introduction of a SEND assessment toolkit has supported us in tracking progress of our SEND and disadvantaged pupils, allowing us to continue taking timely action where needed. We have continued to make reading a priority which has a positive impact on pupils' attitude to reading both in school and at home. The use of individualised support for the most vulnerable has encouraged rapid progress in reading. We have seen increased parental engagement from Pupils Premium families and have worked hard to build strong relationships, bridging the gap between school and home through the use of opportunities such as parent workshops, coffee mornings and informal catch up phone calls. Attitude to attendance has improved and we have seen a real impact of our relentless attitude to attendance in some Pupil Premium pupils who previously had poor attendance. Pupil Premium parents speak positively about St Thomas, as do our pupils.

| Detail of challenge                                                                                                                                                                                                                                                                                                                                                                                  | Impact of 2022-2023 Strategy<br>(Some data not listed due to low PP numbers, ensuring anonymity)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Assessments, observations and discussions with pupils suggest that disadvantaged pupils generally have greater difficulties with phonics than their peers. This negatively impacts their development as readers.                                                                                                                                                                                     | <p><b>Phonics Data</b></p> <p><b>Rigorous tracking of data and use of 1:1 fast track tutoring has allowed our pupils to make rapid progress in reading.</b></p> <p>97% of Y1 pupil passed the phonics screening check.<br/>100% of Y2 pupils passed the phonics screening check.<br/>All children in KS1 have made progress through phonics programme, moving at an appropriate pace through programme, including PP children.</p> <p><b>Fast Track Tutoring</b></p> <p>Fast track tutoring has had a positive impact on all pupils accessing this intervention. 100% of pupils (inclusive of PP) have made positive words per minute progress. For example, one disadvantaged child was assessed at 42 words per minute and has now progressed to 82 words per minute.</p> |
| Our assessments and observations indicate that the education and well-being of our disadvantaged pupils has been impacted by partial school closures to a greater extent than other pupils. These findings are supported by national studies. This has resulted in significant knowledge gaps, leading to pupils falling further behind age related expectations, particularly in maths and reading. | <p><b>KS1 Data</b></p> <p><b>Y2 Reading 87%</b> (37% working at greater depth)<br/><b>Y2 Writing 77%</b> (19% working at greater depth)<br/><b>Y2 Maths 94%</b> (29% working at greater depth)<br/><b>All PP children achieved expected standard in all subjects.</b></p> <p><b>KS2 Data</b></p> <p><b>Our KS2 data continues to be above national average and for this academic year is the best data set in Sefton with our most vulnerable achieving extremely well.</b></p>                                                                                                                                                                                                                                                                                             |

Jesus said, 'Come follow me, live your lives the way God wants you to.'

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | <p><b>Y2 Reading 87%</b> (37% working at greater depth)<br/> <b>Y2 Writing 77%</b> (19% working at greater depth)<br/> <b>Y2 Maths 94%</b> (29% working at greater depth)<br/> <b>All PP children achieved expected standard, in all subjects in KS2.</b><br/> <b>All PP children made good or rapid progress in all subjects in KS2.</b></p>                                                                                                                                                               |
| Attendance data shows that there is missed learning due to poor attendance – there is a difference between PP attendance and non-PP attendance which is a contributing factor to poor academic achievement.                                                                                                                                                                                                                                                                                                                               | <p><b>Attendance Data</b><br/> There is still a gap remaining between PP and non- PP attendance. Attendance was 96.7% compared to PP at 93.4%.</p> <p>There has been some significant improvements in attendance data for some persistently absent PP children.</p>                                                                                                                                                                                                                                         |
| <p>Observations, discussions and surveys indicate low levels of parental engagement/ support – some parents do not engage well with school and communication is poor. There is poor attendance from PP parents at school events such as parents evening and celebrations.</p> <p>Observations, discussions and surveys indicate low levels of parental confidence in supporting home learning – parents and pupils have commented on how they felt a lack of confidence when learning at home, particularly around maths and reading.</p> | <p><b>Parent Voice</b><br/> Recent parent survey demonstrates positive results from PP parents. 100% of PP parents would recommend our school to a friend and feel their child is happy at St Thomas’.</p> <p>100% of Pupil Premium parents (who responded to our survey) would recommend St Thomas to a friend.</p> <p>Registers from events evidence increased attendance of PP parents at events such as parents evening.</p>                                                                            |
| Assessments, observations and discussions with pupils and staff indicate under developed oral language skills and vocabulary gaps in our disadvantaged pupils. Some pupil premium children have speech and language needs and there is a difference between the spoken and written vocabulary of PP and non-PP children.                                                                                                                                                                                                                  | <p><b>Data</b><br/> 86% of pupils for Y1 – Y6 are at ARE for reading at the end of the Summer term (inclusive of 15 PP children).<br/> Language interventions (Neli) had a positive impact on all pupils who accessed with some making rapid progress.<br/> Strong evidence of effective use of vocabulary across school in children’s work and language.<br/> Due to changing needs of cohorts and pupils across school, we no longer feel we need to address this through our pupil premium strategy.</p> |

Jesus said, 'Come follow me, live your lives the way God wants you to.'
